Vacancy details

We are looking for a mobile product manager to develop and manage a money transfer application in Europe.

Responsibilities:

- Translate business objectives, strategy and requirements into a demonstrable product roadmap, based on relevant analysis and research.
- Own and manage entire product, from the idea formation, development, through to launch, growth and maintenance, working with the necessary departments to achieve this.
- Responsibility for the project management and development of each new product, ensuring the requirements from stakeholders to developers are fully understood and actioned.
- o This includes using your technical knowledge to have discussions with developers regarding ways of working,

product requirements and whatever else is needed.

- Collaborate with all relevant stakeholders in the business to develop and action the product roadmap, predominantly working with Design, Development, Marketing and Legal teams.
- Constant communication with the wider business to demonstrate progress.

Your Experience:

- Experience in a similar role in the banking or fintech industry.
- Experience of developing technical products.
- Demonstrable experience of people management.
- Excellent communication skills, with the ability to connect at all levels of the organisation in both technical and non-technical language.
- Ability to deliver measurable results and communicate these to the wider business.
- Strong, analytical, and technical mindset with excellent attention to detail.
- Good command of written and spoken English and Russian.

We offer:

- Competitive salary depending on your level of experience and competencies.
- Health insurance.
- Mentorship.
- Office in the Riga Centre.
- Opportunities for career growth.
