any job

GE01028198

hello, i'm from the middle east and i'm a middle eastern citizen so i speak arabic as well as speaking english frequently because i was educated in a private school but unfortunately now i can't complete my education (i am 17 years old female). so i'm looking for a job suitable for my age in Tbilisi but i really would like to be employed as a waitress/helping kids or mature people or babysitting (which i am really good at/or even an assistant director in a company (if possible)+a free place to stay. there is no specific salary that i need because it depends on the job.
